

# Marissa Pieszak

I am completing my first practicum

I am currently living on campus at TRU, in the North Tower. Before moving to Kamloops I lived in a small town called Castlegar, which is located in the Kootenay's, Living in the Kootenay's has led me to have more outdoor type hobbies, like walks, hikes, boating, in general being outside.

I decided to go into early childhood because I have always wanted to work with children and learn more about them. During my grade 12 year I worked alongside children and found how much I loved it and want it to be my everyday. I also looked into other career choices and figured out very quickly that my other career path ideas were not for me. I am looking forward to creating relationships with children, families and educators.
